

Ian Filby

Project Director
the CarbonNet Project
Commercial Branch, Rural and Regional Victoria
Department of Jobs, Precincts and Regions
Victoria State Government

Ian Filby is the Project Director for CarbonNet at the Department of Jobs Precincts and Regions, a State and Commonwealth funded project investigating commercial scale carbon capture and storage for Gippsland, enabling new industries such as hydrogen production consistent with Net Zero Emissions by 2050 target.

Ian has bachelor's degrees in civil engineering and commerce, with an extensive background working at the interface between government and the private sector on major capital projects.
