

Presentation 9

“Trends and activities to develop common standards for Carbon Markets”

Takashi Morishima

Senior Advisor, Japan

International Emissions Trading Association (IETA)

Takashi Morishima joined IETA as a Senior Advisor in July 2022 and serves as IETA's representative in Japan.

He previously worked for Mitsubishi Chemical Group for about forty years. He started working at the research center and was primarily engaged in colorants and related products, during which he spent two years as a Visiting Scholar at the University of Texas at Austin. He was later transferred to the headquarters and mainly belonged to the strategy department, and was involved in new business development, formulation of mid-term plans, execution of M&A and activities with international organizations such as WBCSD and WEF. He also resided three years in Germany as the managing director of a production subsidiary. He had been interested in GHG issues and worked in the area of scope 3 emissions and Avoided emissions for many years.

Takashi holds a Master of Science from Tohoku University and an Executive MBA from Temple University.
